

Music City Mopar Club

AUGUST, 1992

Dear Friends,

Well, show time is just around the corner and it is time for some very concerted efforts to be expended by ALL club members to make this, our

THIRD ANNUAL show the very best ever. Let me assure you, we have all the potential to promote and provide THE BEST MOPAR show in the entire Southeast. So let's do it...

The Nashville Autofest afforded our club a good opportunity to "test the waters" with our cars as well as earning some money to help offset the expenses of our show. A great big thanks to all the MOPAR CLUB entrants for their participation.

Keep your eyes open for mother MOPAR's possible return to the high banks of NASCAR as development continues on the Dodge Intrepid. This is a neat little package that should interest any MOPAR enthusiast who is in the market for a new car. I had the opportunity to drive one around a parking lot early this summer, and although it was a

test "mule" it was a remarkably sound package, quite quick I might add. Trouble is, it only comes in a 4 door and the NASCAR folks are very picky when it comes to Chrysler to begin with. Remember, they would not let the Lebaron Coupe compete but turned around and allowed the Lumina to run just three years later... Odd folks!

Has anyone seen any real PICTURES (not drawings) of the 1993 1/2 Dodge Trucks? This has to be a better guarded secret than the MX missile. We all knew what the VIPER looked like a week after it's design was approved for a mock-up. Such mysterious behavior indicates that the truck division must really have a back-log of the "old" (read current) trucks and is afraid that the teaser of the new one will halt sales of the models already available.

Please make every effort to come to our meeting this month and assume some responsibility for the show. See you there.

MOPAR TO YA

Rev. Mopar

TECH TIPS

ANNOUNCING A CLUB PROJECT....

...which will serve as the ultimate door prize at our 1993 show. We have arranged for the purchased of a 1971 Dodge Demon and MOPAR enthusiast Norman Chesney). This project will take the better part of a year to complete, but will be well worth the effort. In this column you will be able to keep abreast of the evolution of the car. We further hope that YOU might become a part of the actual project.

THE CAR: 1971 Dodge Demon, 318 three speed (on the floor but to be changed to an automatic), straight body with a little rear quarter rust, all new front end

parts (and I mean ALL). The car is blue with a light blue interior. Car can be seen at Rev. MOPAR's garage anytime.

THE GOAL: A fresh 360 engine, automatic, and sure-grip differential, new wheels and tires, new interior, new paint on a properly repaired body, decent sound system, and graphics (mild of course). We hope to have the car completed by the show circuit next year as an advertising tool for our show... It should generate a lot of true interest and be a stepping stone to bigger and better things for our club. We anticipate getting most of the parts and work

done in return for a year's worth of advertising etc., and what isn't donated will be purchased by the club and all the work will be done by members under the direction of Rev. Mopar.

THE NEED: YOU! Do you have a spare 360 engine and/or 727? Do you have a Sure-grip unit or chunk that you can donate? How about some wheels (15" please)? Do you have a special skill that would help us get the body, interior, engine, or whatever completed? Would you like to just contribute \$5 or \$10 to the project? Do you know someone who will donate parts and services in exchange for advertising and a tax write off? Let's talk it up at the meeting.

Be assured, this is going to be a fun project, and when it's done we will do a gas mileage test, a cruise test, and a drag test on it and document the results for the lucky new owner. Also, we have decided to award the car with a full tank of gas! Are you ready to win?

CLASSIFIED

Ads must be resubmitted each month in order to be printed. Ed.

Cars For Sale

1972 Dart Swinger "318" Auto, Air, Rebuild Trans, New Tires, New Paint. Call Larry (615) 391-3912.

"REMEMBER" Club members Make the Club! Participating Members Make It BETTER!!!

The Nashville Auto Fest is behind us now. The Club did a fantastic job!! We had more members that show than any other club. Our Members who could not show their cars and were able, came to lend moral support and visit with us. You all did a good job and were very supportive. THANKS!!

Yes, there were a lot of things about that show that we all did not care for, BUT it was not our show, we did not put it on, we did the best we could under the guidelines we were given. We did accomplish what we set out to do. Raise Money for Our Show, Show off our Vehicles and have a good time. Our Club received \$420 towards our show. Thank You All Again.

Now we all need to concentrate on our show. September 26th will be here before you know it. We still need the following - Goody Bag Stuffers - Door Prizes - Donations.

We have 200 Goody Bags to stuff. If someone donates a Door Prize be sure to get a business card to put with it so that the doner can be announced and thanked. The same goes for Cash Donations.

It is important that we are able to properly thank these people. We will discuss this further at our meeting August 23rd!

Personal Notes

Members who came Home from the Auto Fest with awards were:

Roger Hendrick Demons Fault
Paul Julian 55 Belvedere
John Dodson 70 Challenger TH
Mike Frakes 71 Duster
Bill Cook 71 Demon (Bronze)
Bill Cook 71 Demon (Black)
