KIM'S KORNER

AKA Ladies Choice

Seasons Greetings to one and all!

I hope everyone had a great Thanksgiving. I know we sure had a lot to be thankful for. Mostly, thank God for all He has blessed us with, our families, our friends, and last but not least, our MOPARS.

I also want to thank you all for giving me the privilege of being your vice-president. I have truly enjoyed all the hard work, the planning and just being with everyone. I want to personally thank Butch, Mike, and Bill for all their hard work this year. I believe that the four board members working together and pulling for one another was a big plus for our club. I feel that our club has always been a great club, but, as you all know, it takes a lot of work. Everyone must work together to make a success of something. And we have, not just the board members, but each and every Music City Mopar Club member.

Christmas is rapidly approaching. Things get kind of hectic this time of year. Let's try not to let the hustle and bustle of preparing for the holidays, get in the way of what is one of the most important times of the year. Christmas is truly a time of giving. Not just to friends and family. But remember to give to yourself also. Be it a gift, or something more special. Time. Time is precious. Life is short. Be good to yourself. And others.

I'm really looking forward to seeing and being with all of you next year at club events and car shows, or a chat on the phone. Thank you again for being the wonderful people you are.

From our household to yours, may all your Christmas hopes and dreams come true. And may the true spirit of Christmas be with you today, tomorrow and always!

Stay Safe and Be Aware!

DODGE CHARGER R/T

There you were with your plug, wrench clenched in a set of badly battered knuckles, wiping the other paw on the back of your jeans, when this black maw of a grille attached to a wingless Mach 2 jet throbs up. "Ha," you scoff. "Bet he has to beat it with a whip to even get it out of the garage..." With a snick that can only mean close-coupled four-speed and a howl that says 440 cubes

of mean, it disappears. Charger R/T just arrived. End of the road for the do-it-yourself kit, Charlie.
