June 2001

## ***GRAND OPENING AT HALLMARK DODGE***

Hallmark Dodge has opened their new dealership at Hickory Hollow Mall. The June meeting for the Music City Mopar club will be on Saturday June 23<sup>rd</sup> at 2:00 P.M. at Hallmark Dodge. All club members need to bring their car or truck that day because we are having a display to help them celebrate the grand opening. The display will be from 10:00 A.M. through 4:00 P.M. All members who are bringing their car or truck need to be there by 9:30 A.M. in order to get everything set up by 10:00 A.M. Hallmark has been a great sponsor for our show for several years so we really need to show our support for them on June 23<sup>rd</sup>. The club will provide hamburgers and hotdogs for lunch so everyone needs to come out to show your support and have a good time. Don't forget about the \$25 door prize, but you must be present to win

The Viper Club is also going to be there and I believe they are planing to cruise to Cool Springs Mall when the display is over so if anyone in the Mopar club wants to join them you will be more than welcome.

Directions to Hallmark are from Nashville take I-24 east towards Chattanooga, get off at Hickory Hollow Parkway (exit no. 60). Go to Mountain View Parkway (first signal) and turn right, go to next intersection which is Crossings Blvd. and turn right. Hallmark Dodge is approx. ¾ of a mile on the right, (5800 Crossings Blvd.). Their phone number is 615-941-3200. We will see you there.

Wayne Hall, V.P.

## EDITOR/TALK

Take a good look at the picture above. How many times have you seen this scenario? You see an old car, in this case an old mopar, or in a field, a barn or maybe someone's yard covered by weeds, or worse yet a makeshift dog house! Naturally your automobile instincts take over your mind and body and you stop to investigate. You ask the owner (and I use that term loosely) if it is for sale. Or maybe, what are you going to do with it? Or perhaps even, will you sell parts off of it? The answer is usually a resounding no! We've all heard it a million times. "It belonged to my dad, mother, son, best friend, or something, and it has sentimental value". Or my personal favorite, "I'm gonna fix-'er-up someday". Meanwhile, it is sitting there rusting down to a fine powder. We have all had this happen to us at some point in our never-ending quest to dig up a car from the hell-on-earth it has been reduced to thanks to some knuckle head who doesn't know what they have or don't care. Some people would rather see it sit there and decompose rather than sell it to a caring individual who can revive it. They can even make a few bucks to boot! This really gets under my skin, as I am sure it does you as well.

Here's one for you. I just recently got back from a camping trip with my folks. While I was there, I happened along a 1968 Dodge Charger sitting in the weeds. Of course, I stopped. Upon further investigation, I discovered that it was an R/T with a 440 automatic. Options included power brakes, power steering, and A/C. It was gold with a tan interior. At this point the engine and tranny were long gone. In their place was the rarely seen option dogwood tree peeking around the hood. I was told that the owner now lives in Knoxville and that it wasn't for sale. I was given the man's name but no phone number. I used my resources to track him down but hit a dead end. I was also told that it had been sitting there since 1973! I'm speechless! This car is restorable and deserves more.

This club is about our love and devotion to mopars. It is also about preservation of these American icons of automotive heritage. It just sickens me to see one of our own (so to speak) die like this.

Anyway, I'm going to get off my soapbox now. I'm sure you feel the same as I do, but I just needed to speak my mind and raise everyone's awareness on this issue. But, I will close with this. All of you people that fit this description had better beware. One day the government is going to come knocking on your door and just take it.....legally! They will also give you a lot less money than an enthusiast will and to beat that, they will crush into a Kia! *We* will make way better use of it, and you can print that! Keep the faith!

Mopar 2 ya!

Keith Petitt-editor

4 side markers \$80, Tail lights \$40, Hood latch brace and crossmember \$30, Front turn signals \$35, Headlight doors \$40, grille-repairable \$15, filler panel grille \$30, coronet 440 rear quarter emblems \$30.
